

Lipids, Fats and Oils:

H.P. Kaufmann Prize

for Young Scientists

German Society for Fat Science

The H.P. Kaufmann Prize was instituted to commemorate the late founder, long-time president and honorary president of the German Society for Fat Science (DGF). It is granted to an applicant for distinguished research in the fields of fat science and fat technology.

The H.P. Kaufmann Prize consists of 1000 Euros cash, a plaque, a certificate and a one-year subscription for the *European Journal of Lipid Science and Technology*. An expert commission decides about the merit of the submitted work.

Invited applicants are young scientists who are no older than 35 years as of the application deadline. Original publications in peer-reviewed journals (no older than two years or accepted publications in press, four copies) should be submitted as well as a curriculum vitae. The work may be submitted in German or English. Only personal applications will be accepted. Research already merited by other scientific awards cannot be considered. The deadline for submission is 31 March of each year.

Please send applications to:
