

LIPIDFORUM ACADEMY

An introductory course in Lipid Science and Technology

For Ph.D. students and employees in the fats and oil industry

At Chalmers University of Technology

Gothenburg, Sweden 12-16 September 2007 (just prior to 24th Symposium of Lipidforum and 5th Euro Fed Lipid Congress)

Course content:

Protection of lipids by antioxidants (*Prof. Edwin Frankel, Univ. of California, Davis, US*)

Novel Technologies: Enzymes in Lipid Technology (*Prof. Uwe Bornscheuer, Greifswald Univ., D & Prof. Gudmundur Haraldson, Iceland Univ., IS*)

Novel Technologies: Membrane Technology (*Dr. Sefa Koseoglu, President, Filtration and Membrane World LLC, TX, US*)

Lipids in Health and Nutrition (*Prof. Birgitta Strandvik & Prof. Lars Ellegård, Sahlgrenska Academy, Göteborg University, S*)

Lipid analysis (*Prof. Paola Dugo, Univ. Messina, I; Dr. Huiling Mu, Tech. Univ. Denmark, Dk*)

Lipid as Raw Material (*Dr. Ulf Hansson, Aarhus-Karlshamn AB, S*)

Lipids in Foods (*Dr. Ingrid Undeland, Chalmers Univ. Tech., S*)

Basic Lipid Chemistry (*Dr. Lars I. Hellgren, Tech. Univ. Denmark, DK*)

A small project group work on relevant topics will also be carried out and presented during the course

Course credit: 2 ECTS point

Course Language: English

Maximum number of participants: 20

Please contact : Ingrid Undeland (undeland@chalmers.se) or Lars Hellgren (lih@biocentrum.dtu.dk) for more information on the course.

See You in Gothenburg !
